

ISPRM MEMBERSHIP REGISTRATION STEP-BY-STEP GUIDE

**NATIONAL
SOCIETIES**

Note: If you need it, you can change almost any text on our website, including the membership forms into your language! **Click on our translator at the bottom of each page.**

How does a National Society have access to the ISPRM online membership platform?

In order to allow each National Society to have one access (username) that never changes, we created a unique email address which your representative/main contact person can use to log-in to your **ISPRM profile** at isprm.org as well as access all our notifications/important communications in a single mailbox at isprm.org/webmail/log-in

Even if your representative/contact person changes, the ISPRM email will remain the same!

Each National Society receives a one time email* informing of their credentials, **example:**

- USERNAME (EMAIL ADDRESS): **example@isprm.org**
- PASSWORD** (EMAIL ADDRESS): **EXAMPLE22**

*Sent during our official launch in March 2022 or whenever a new National Society joins.

This is a temporary password, please access <https://www.isprm.org/webmail/log-in> and click on **LOGIN CREDENTIALS to change password (make sure to save it somewhere safe!). *We highly advise that the password be changed every time you change official representative with access to it.*

After you log-in to the ISPRM email address inbox of your Society, go to "FORWARDERS", where you can list email address(es) of your representative(s) to have our communications automatically forwarded to them!

STEP 1.

Go to ISPRM.org or directly to:

<https://isprm.org/membership-registration-platform/>

Tip: save onlineservices@isprm.org to your email contacts list to avoid getting our platform communications in your spam folder!
