

## **We'll make it through Physiatry - Philippines**

The journey might be weary  
But we're standing tall  
Mending disability  
We'll give our best for you all  
Train our patient  
Climb Mountains  
Ride forth against the tide  
Brace their feet and set their shoulders high  
So high!  
Send every sunset with new hope  
Walking tall across the globe  
Standing firm, braving the impossible  
Face every sunrise with vision  
Healing with no boundaries  
To live every day with a mission  
We'll make it through Physiatry
